

SOP-SAF-08: Driver Safety, Hours of Service (HOS) & Emergency Procedures

SOP-SAF-08: Driver Safety, Hours of Service (HOS) & Emergency Procedures

1. Driver Safety Procedure & Hours of Service (HOS) Regulations

LogiAgent enforces strict adherence to federal Hours of Service (HOS) regulations to eliminate driver fatigue.

Maximum Driving Duty Limits

- 11-Hour Rule: A driver may drive a maximum of 11 cumulative hours after 10 consecutive hours off duty.
- 14-Hour Duty Window: All driving duty must be completed within a 14-consecutive-hour window from shift start.
- Mandatory 30-Minute Rest Break: Drivers must take an uninterrupted 30-minute rest break after 8 cumulative hours of driving time.
- 60/70-Hour Weekly Limit: Drivers must not exceed 60 hours on duty in 7 consecutive days or 70 hours in 8 days.

Personal Protective Equipment (PPE)

All drivers must wear mandatory PPE when operating on loading docks, freight terminals, and customer facilities:

- Steel-toed safety boots with slip-resistant soles (ANSI Z41 compliant).
- High-visibility Class 3 safety vest or jacket with reflective striping.
- Hard hat and protective safety glasses in active forklift zones.

SOP-SAF-08: Driver Safety, Hours of Service (HOS) & Emergency Procedures

2. Emergency Breakdown & Incident Procedures

When a mechanical breakdown, flat tire, or highway emergency occurs:

1. Hazard Lights: Immediately activate 4-way emergency hazard flashers and pull safely to the outer shoulder.
2. Emergency Warning Triangles: Deploy three (3) reflective emergency warning triangles within 10 minutes:
 - Triangle 1: Place 10 feet (3 meters) directly behind the vehicle on the traffic side.
 - Triangle 2: Place 100 feet (30 meters) behind the vehicle along the shoulder center.
 - Triangle 3: Place 200 feet (60 meters) behind the vehicle to give oncoming traffic advance warning.
3. Dispatch Emergency Notification: Contact Central Safety Hotline via LogiAgent App SOS button.

3. Severe Weather & Speed Guidelines

- Heavy Rain / Fog: Reduce highway speed by 25% and increase following distance to 6 seconds.
- Snow / Icy Road Conditions: Reduce highway speed by 50% or seek safe designated truck parking until highway clearance.
